

Dear Parents,

We are pleased to initiate the online module to view the details of your ward/s regarding Students's Personal Data and School Fee. These modules are protected through a unique user ID and a password for every student.

To generate your ward's unique password for the first time, go to Online Fee Deposit --> Click on the Reset Password button --> Enter the details as given:

User Name	:	Admission No. of your ward
Registered Mobile No	:	Mobile No. Registered with school for SMS
Student's D.O.B	:	Date of birth of your ward
User type:	:	Student

After filling in these details, enter the captcha & finally press the Reset button. You will receive a unique password on your registered mobile number. On getting this password, you can subsequently login using the UserID and the password.

For any clarification, kindly contact the School Office (during working days).

Principal
